

Energy Supply (ES) Technical Work Group Teleconference Meeting #2

October 25, 2006

Today's Agenda

- Roll Call
- Updates to the Montana Emissions inventory & forecast
- Discussion of next steps toward identification of priorities for analysis of options
- Review and Discussion of the Catalog of State Actions
- Introduction of GHG reduction option template
- Next Steps for TWGs
- Agenda, Time and Date for Next Meeting
- Public Input and Announcements

Updates to Inventory and Reference Case Projections

- Collecting data for “contract path” method of estimating GHG emissions from electricity generation
- Developing estimates for projections under “High Fossil Fuel Production” case
- Reviewing data on energy consumption and GHG emissions from coal mining
- Corrections to emissions from Industrial Processes

Identifying Priorities for Analysis

- Approach for identifying initial “priorities for analysis” by TWG voting:
 - Review catalog of options and revise as needed
 - Identify a set of priority options by voting process via email
 - Ballot sent by CCS to TWG members
 - Each TWG member identifies 10 priority options
 - Add comments as needed (for example, with regard to possible consolidation of policies)
 - Return to CCS team (Michael, David, and Alison) for compilation
 - CCS will compile results for discussion at next TWG call
- CCAC will review and consider at its next meeting

Catalog of State Actions

- Refer to handout
 - Note updates from TWG and CCAC input
 - Includes preliminary indicators of potential GHG reductions and costs/cost savings
 - Preliminary simplification of options list:
 - Consolidate options that are heavily overlapping

GHG Mitigation Option Template

- Refer to Handout, MT GHG Mitigation Option Template
 - Provides consistent format for all TWGs to present information on priority policy options
 - To be used in stepwise format, starting with policy description, policy design “straw proposals”

Next TWG Call

- Agenda:
 - Discuss results of TWG voting on potential priorities for analysis of policy options
 - Develop and tailor list of priority options
 - Review the Montana emissions inventory and projection if/as needed

Public Input, Announcements
